<b>Barchip Inc</b>	Patrick Lewandowski	716 923 3147	www.barchip.com	Manufactures of Barchip BC 54 Macro Synthetic fibers used in tunnel linings, slope stabilization, and mining underground support.
<b>Bekaert Underground Solutions</b>	Bill Geers	813-313-7759	www.bekaert.com/en/products/construction/concrete-reinforcement/fiber-concrete-reinforcement-for-tunneling-and-mining	Choosing the right fiber for your underground project is an important step in the design process. If you are looking for an experienced manufacturer of fiber concrete reinforcement for tunneling and mining applications, Bekaert is your partner. We have the right fiber for any job or performance requirement. Our products include synthetic and steel fiber solutions. We aim to offer you the smartest fiber solution to reinforce your project.
<b>Gary Carlson Equipment Co</b>	Gary Carlson	651 755 5426	garycarlsonequip.com	Gary Carlson Equipment Co. stocks for immediate rental or sale a wide range of wet and dry shotcrete equipment from manufacturers such as Chemgrout, Allentown/Putzmeister, REED, Con Forms and many others. This year, GCE will introduce our new robotic wet or dry spray head attachment to ASA at the convention.
<b>Gunite Supply &amp; Equipment</b>	Tom Norman	513.898.0173	www.gunitesupply.com	The Gunite Supply & Equipment Company began business in 1947 and has been the premier OEM of dry process shotcrete (gunite) equipment in the construction industry since the early beginnings of the Gunite process. Gunite Supply specializes in the design and manufacturing of the C-10SL & C-10HHD Rotary Bowl Gunite Machines, shotcrete parts, tools, and accessories. Gunite Supply is an active partner in the industries we service and are proud members of The American Shotcrete Association, The American Pool and Spa Association, & The International Concrete Repair Institute.
<b>Polyfibers®</b>	Faraz Malik	905324113697	www.polyfibers.com	<p>Polyfibers® is a thriving manufacturer of high-performance synthetic fibers for over 20 years. Polyfibers® offers a full line of micro and macro synthetic fiber products with unmatched technical support to clients globally. Setting a rich standard within the industry by:</p> <ul style="list-style-type: none"> <li>•Micro synthetic fibers in construction, tunneling, mining, precast and chemical market</li> <li>•Fibril synthetic fibers in construction, tunneling, mining, precast and chemical market</li> <li>•Macro synthetic fibers in construction, tunneling, mining and precast market</li> <li>•Design engineering consultancy and tailor-made solutions</li> <li>•State-of-the-art testing facility for fiber reinforced concrete evaluations of special projects</li> <li>•CE system 1 and 3, ASTM, ICC AC32, ICC AC383 certified products</li> </ul>
<b>Putzmeister</b>	Robert Harmon	610-909-9519	www.putzmeister.com	Putzmeister has been a global leader in the construction and mining industries since 1958. Putzmeister has developed, produced, sold, and serviced high quality and high reliability machines for pumping distributing and placing, concrete, shotcrete, mortars, and high density solids.
<b>Minova, an Official REED Shotcrete Equipment Distributor</b>	Dawn Mclean	618-578-9170	www.minovaglobal.com & www.reedpumps.com	Minova Global is an Official REED Wet & Dry Shotcrete Equipment Distributor, as well as serving various construction, mining, and energy markets with products such as pumpable grouts, pumpable construction cement, steel and GFRP products, injection resins, sprayed membranes and coatings, and pipeline products.
<b>Sika STM – Shotcrete, Tunneling &amp; Mining</b>	Kevin Robertson	929-318-3085	usa.sika.com/STM & www.kingshotcrete.com	Sika Corporation is headquartered in Lyndhurst, NJ and employs more than 1,700 people in 22 locations throughout the country. Sika Corporation is the largest company of the Sika Group, a global leader in specialty chemicals for construction, industrial and automotive markets. For over a century, Sika has been a pioneer in construction and has participated in the most challenging shotcrete, tunneling and mining projects ever built. Today, Sika's Shotcrete, Tunneling and Mining (STM) team integrates King Shotcrete's credibility with Sika's global experience to provide state-of-the-art technologies for all aspects of your shotcrete rehabilitation, tunnelling, and underground projects. Our comprehensive portfolio includes, pre-packaged shotcrete, shotcrete fibers, shotcrete accelerator, grouting and injection products, shotcrete equipment, and TBM products. Visit us at usa.sika.com/STM.
